

SAVING PRODUCTIONS MONEY

WHAT SHOULD YOUR PAYROLL REALLY COST?

The true cost of your payroll is your payroll fee, plus workers' comp and employer payroll taxes. Compare Indiepay to other Employer of Record (EOR) payroll providers that charge a flat 1%, and you'll find that they are costing you more because they also charge you more on state unemployment insurance (SUI). With Indiepay you could save 20% or more, we never mark up unemployment insurance or hide fees. We give you the true cost, all in, payroll fee plus workers' comp and the SUI rate your production is required to pay. We make it easy by managing ALL workers' comp and unemployment claims, with no added work for you. Get the best rates and the best service, just tell us where you're shooting and we'll show you how much you can save.

SAVE MORE WITH INDIEPAY

Estimated savings with budget of \$2.9MM

STATE	1% EOR PAYROLL FEE (+ WORKERS' COMP AND SUI MARKUP)	INDIEPAY (TRUE COST)	SAVINGS: (ESTIMATED)
NEW YORK	\$120,205	\$99,092	\$21,113
GEORGIA	\$104,446	\$85,089	\$19,357
CALIFORNIA	\$84,799	\$84,799	—
LOUISIANA	\$85,937	\$82,344	\$3,593
OHIO	\$96,860	\$84,456	\$12,404
PENNSYLVANIA	\$123,789	\$92,123	\$31,666

Estimated savings based on an actual production budget of \$2.9 million and \$1,171,967 in labor costs.

Rates and wage caps used for the estimates are subject to change and are based on current statutory rates and published competitor rate sheet as of August 2016.
